Leadership & Entrepreneurship Accelerator Program
(An Exclusive Opportunity for Students of Grades VIII–XII)

29 May 2026

Dear Parents

In today's rapidly evolving world, nurturing leadership, innovation, and entrepreneurial thinking among young learners has become more important than ever. To provide our students with a transformative learning experience beyond the classroom, the school is delighted to introduce the Leadership & Entrepreneurship Accelerator Program, an immersive three-day experience designed to empower future leaders and changemakers.

This exclusive program will be conducted by Dr. Jojo O'Driscoll-Kearney, Harvard Business Impact Faculty, Hult Professor, and former Chief Learning Officer at Meta and Majid Al Futtaim, who brings over two decades of global leadership and advisory experience.

Designed for ambitious students of Grades VIII–XII, this first-of-its-kind program will take participants on a journey from self-discovery to investor pitch, helping them develop the mindset, confidence, and skills required to thrive in the future.

Key Learning Outcomes:

- Founder's Mindset: Identify real-world problems and transform ideas into actionable solutions
- Leadership Clarity: Understand personal strengths and leadership style through structured tools
- Venture Creation: Build a business idea using Design Thinking—from concept to prototype and pitch
- Communication & Executive Presence: Develop confidence in public speaking, storytelling, and pitching
- Resilience & High-Performance Skills: Learn practical frameworks for decision-making, growth mindset, and adaptability

The program is highly interactive, involving brainstorming, collaboration, prototyping, and live pitching sessions, ensuring hands-on learning throughout.

At the culmination of the program, each participant will receive a TEO + HPAIR Dual Certificate, co-signed by Harvard Business Impact Faculty, a valuable credential for future university applications, portfolios, and professional profiles.
